

eclipse group solutions ltd

Eclipse Group Solutions offers **a broad range of IT and Internet services to businesses**. Established in the early 1990s the Group has developed its core business to encompass...

- Outsourcing for IT departments and IT projects
- PC, network and infrastructure support through software & hardware
- Internet services, e-business, web design and marketing
- IT recruitment providing contract and permanent staff

The Group comprises four specialised yet closely integrated divisions, providing skills, support and innovation to cater for the changing IT demands of modern businesses.

Eclipse Outsourcing Limited

As a specialist in alternative solutions, Eclipse can greatly improve the efficiency of an IT environment. By using outsourcing to develop new, or support existing systems, or to manage and resource a new project, or even to run an IT department, clients can benefit from better value from IT budgets, cost reductions, improved systems delivery, and time to concentrate on their core activities. Client site or off-site Eclipse facilities are available.

Eclipse IT Solutions Limited

Provides infrastructure support and consultancy covering all aspects of IT installations. With divisions covering amongst others, Support, Hardware, Software, Networking, Security, Data Storage and Management, Eclipse IT Solutions has grown to become a specialist company supporting the majority of the infrastructure needs of business today. A Microsoft Channel Partner and WatchGuard Expert Partner.

Eclipse Net Solutions Limited

Offers a complete service to clients seeking to exploit web technology and e-business solutions. By providing robust solutions to client specification and brief, quality is achieved through design expertise, creative planning and an understanding of business needs.

As specialists in e-marketing and e-business promotion, Eclipse designs protect the investment in web-site technology by optimising the business returns through refining and tuning the opportunities presented by leading search engines.

Eclipse Personnel

Has excellent credentials for solving human resource recruitment problems. A professional recruitment consultancy with a long history of success through solutions that include permanent IT staff and skill-specific contract consultants. All platforms are covered, whether it be Web, PC, Client Server, Midrange or Mainframe and all technical skills, business areas, and job disciplines can be supported.
